CHAPTER I

INTRODUCTION

1.1 Background

Tourism is one of the important sectors in Indonesia. Indonesia has many beautiful tourist destinations that attract both local and international visitors. One of these destinations is Labuan Bajo, located in West Manggarai, East Nusa Tenggara. Labuan Bajo is well known for its beautiful natural scenery, marine tourism, islands, beaches, and cultural attractions.

Labuan Bajo has several interesting destinations, such as Padar Island, Pink Beach, Komodo National Park, Manta Point, and other islands around the area. These destinations have great potential to attract tourists. However, having beautiful tourist destinations is not enough. Good promotion is also important to introduce these destinations to a wider audience.

Today, social media has become one of the most popular communication tools. Platforms such as Instagram, TikTok, YouTube, and Facebook allow people to share photos, videos, information, and experiences easily. Social media can also be used to promote tourism because tourists often look for information and travel inspiration through social media before visiting a destination.

Through attractive photos, short videos, travel information, and creative content, Labuan Bajo can be promoted to more people. Social media can show the beauty of destinations and provide useful information about places to visit, activities, local culture, food, and travel experiences.

Therefore, this proposal focuses on the use of social media as a promotional tool for tourism in Labuan Bajo. The program is expected to introduce Labuan Bajo to a wider audience and encourage people to visit and explore its tourist destinations.
